The Campus Master Plan

The PLANNING process (for BRIDGING the needs of the campus with the potential and constraints of the funds) is a two phase project. The first phase of the process begins in 1989 when the Campus Master Plan was commissioned. The second phase of the process began in 1990 with the preparation of the Master Plan. The objectives of the Campus Master Plan are:

1. To develop a comprehensive plan for the future development of the campus
2. To ensure that the plan is consistent with the university's mission and goals
3. To provide a framework for decision-making
4. To prioritize and allocate resources

The objectives of the Campus Master Plan are consistent with the University's physical plant and the overall vision of the campus. The Campus Master Plan is a tool for communicating the vision of the campus to the university community and for guiding the decision-making process.
Some Existing Buildings:

- Jesse Hall
- Ellis Library
- Fine Arts Building
- Brady Commons
- Agricultural Building
- Chemistry Building
- Physics Building
- Veterinary Medicine Building
- Animal Sciences Center
- Livestock Pavilion
- General Services Building
- Hearnes Center
- Dalton Research Center
- Animal Science Center
- Livestock Pavilion
- General Services Building
- Hearnes Center
- Dalton Research Center
- Agricultural Test Plots

New Buildings Recently Completed:

1. Ellis Library (Phase I)
2. Law School
3. Student Recreation Center

New Buildings in Design or Construction:

4. Engineering Addition
5. Agricultural Research Addition
6. Ellis Library (Phases II, III, IV - with parking under Phase IV)
7. Reynolds Center
8. Research Reactor Addition
9. School of Journalism
10. Future Academic and Research Buildings
11. Future Sports Buildings
12. Future Housing
13. Future Parking Structures

Major Central Campus Open Spaces:

- Francis Quadrangle
- South Quadrangle
- Shrewsbury Field
- Conley Mall
- Lowry Mall
- Peace Park
- Flat Branch Park
- Virginia Avenue Recreation (with expanded tennis courts area)
- Relocated McKee Field and Recreation
- Sanborns Field
- White Campus
- Ellis-Brady Courtyard

CAMPUS MASTER PLAN
UNIVERSITY OF MISSOURI-COLUMBIA

- University land, largely pedestrian but including service drives and small parking areas
- Major walks*
- Existing campus buildings to remain
- Buildings under construction or in design
- Some possible future structures (with more to be studied)

** Note: Many walk and bikeways are shown straight for diagrammatic clarity; in actuality many will be curved and shaped to topography, planning and buildings.
